|               | ▪ Cross-Browser Compatibility |                          |

### PROFESSIONAL EXPERIENCE

---

#### MALLIE BAKER ONLINE RESUME

- Used HTML and CSS/SASS to create a fully responsive, syntactically accurate, four-page resume for Mallie to showcase her talents in order to aid her job search
- Google Fonts, Grunt, and NPM aided in the production of the site
- Utilized Github for version control and to post online

#### INDIGO ROSE TATTOO WEBSITE

- Designed and developed using HTML, CSS/SASS, and JavaScript/jQuery
- Inquired with the shop about what specifically they wanted the website to be able to do
- Created thumbnails, wireframes, and mockups in Photoshop and Illustrator to showcase what the final design would look like

#### IRON YARD PROJECTS

- Designed and developed using HTML, CSS/SASS, and JavaScript/jQuery
- Heavy focus on the production pipeline including thumbnails, wireframes, and mockups
- Used Photoshop and illustrator to create production documents and edit photos for use in the development of websites
- Created fully responsive and cross-browser compatible websites in an extremely tight production schedule

## EDUCATION & TRAINING

---

**The Iron Yard**, 3 month immersive training program, HTML5, CSS3/SASS, JavaScript, Web Design Techniques

**Bachelor of Arts**, Middle Level Education / English and Social Studies, University of South Carolina, Columbia, SC
